PROFESSIONAL SUMMARY

Systems Analyst with over five years of experience in technical support, software development, and data analysis. Proven track record in troubleshooting complex ERP systems, automating processes with Python, and managing SQL databases. Strong communicator with international experience (Dublin, Ireland), dedicated to resolving technical issues and optimizing IT infrastructure to support business goals.

PROFESSIONAL EXPERIENCE

Systems Analyst/Technical Support
CONEFI LTDA

📅 06/2021 – 10/2025

- Provided specialized Tier 2/3 technical support for ERP systems (EMSys3, AutoSystem) and corporate IT infrastructure.
- Developed and maintained internal applications and automated ETL pipelines using Python to streamline operations.
- Performed data extraction, cleaning, and analysis (SQL/Python) to generate operational insights and support decision-making.
- Managed and modeled relational databases (PostgreSQL/SQL Server), ensuring data integrity and performance.
- Automated routine manual tasks and workflows, reducing response times and human error.

IT & Engineering Intern

TV Integração (Rede Globo Affiliate)

📅 09/2014 – 11/2016

- Delivered technical support for broadcasting systems and maintained network infrastructure.
- Handled end-user support (Help Desk), troubleshooting hardware, software, and connectivity issues.
- Monitored system performance and assisted in preventive maintenance of technical equipment.

EDUCATION

B.S. in Systems Analysis and Development
UNINTER

📅 Expected 06/2026

Relevant Coursework: Software Engineering, Database Management, Object-Oriented Programming (OOP), System Analysis, and Project Management.

Associate Degree in Electronics
CEFET-MG

📅 Completed

Focus on embedded systems, microcontrollers, and digital circuits.

TECHNICAL SKILLS

Data & Backend

- SQL (PostgreSQL, MySQL, SQL Server)
- Python (ETL, Pandas, Automation)
- REST APIs (Flask, Postman)
- Web Scraping & AI Fundamentals

Development & IT Ops

- Git, Linux, JSON/XML
- HTML, CSS, JavaScript (React)
- Agile Methodologies (Scrum)
- ERP Support (EMSys3, AutoSystem, Domínio)
- Troubleshooting & Technical Support

LANGUAGES & CERTIFICATIONS

General English (B2 Upper-Intermediate)
OSCARS International – Dublin, Ireland

📅 2019

6-month immersive exchange program focused on professional communication and fluency in an international environment.

PUBLICATIONS

Technical Articles in Information Systems

📅 2021

Academic Production

- Research on software quality, component architecture, and GPU performance.
-  [Repository with full articles](#)
